VUZIX®

View the Future®

The Future of Video Eyewear

Vuzix, the world leader in video eyewear technology, continues to set the global standard for video eyewear products with its newest Wrap™ product line. Enjoy the big widescreen 2D or 3D movie experience with your own personal theater – anytime, anywhere. A full range of Wrap eyewear accessories allow you to customize your experience, keep abreast with the latest technology, and watch your favorite movies from virtually any video source.

Vuzix Wrap video eyewear – View the Future®

COMING – SPRING 2011

Wrap™ 1200 Widescreen

The most advanced, highest-resolution widescreen video eyewear available – ever!

The sunglass-style Wrap 1200 provides a portable 16:9 widescreen experience equivalent to a 75-inch screen viewed from ten feet (3 m). Crystal clear high-resolution displays provide stunning 2D video quality for all your movies and video downloads. 3D video is only a button click away with built-in support for most common 3D formats. Focus, eye-separation (IPD) and viewing angle adjustments make this the most adaptable video eyewear display available today. The eyewear of choice for those demanding only the best in performance and style.

For all Video Devices

Wrap™ VR1200

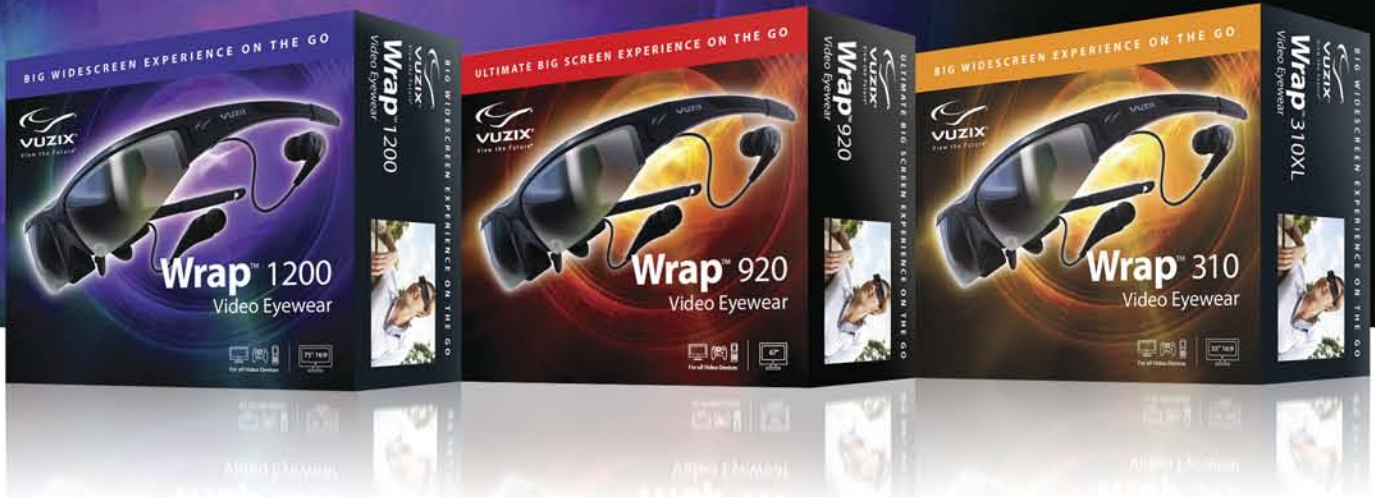

The world's first high-resolution 16:9 widescreen virtual reality eyewear system.

The widescreen Wrap VR1200 provides a 75-inch screen viewed from ten feet (3 m) and supports display resolutions of up to 1280 by 768. Out of the box 2D video for all games and applications plus 3D for a wide assortment of titles. The Wrap VR1200 supports up to 6-degrees of freedom head-tracking with drift compensation and removable stereo earphones. Works with virtually all makes and models of Windows-supported graphics cards.

For all Video Devices

AVAILABLE NOW

Wrap™ 920
Premium performance 2D and 3D video eyewear

The sunglass-style Wrap 920 provides a portable big-screen experience equivalent to a 67-inch screen viewed from ten feet (3 m). This crystal clear higher-resolution display supports standard 2D video as well as most common 3D video formats. Two AA batteries afford up to three hours of continuous use. Connects to virtually any portable media player or to your PC with an optional video adapter cable. As with all Wrap model eyewear, the Wrap 920 includes removable high-quality noise isolating earphones.

For all Video Devices

Wrap™ 920AR
Augmented Reality Eyewear

The world's first consumer market augmented reality eyewear

The Wrap 920AR features a 67-inch display as seen from ten feet (3 m). Its stereo camera pair captures a 1st person view of the real world, bringing augmented reality to life. Each camera captures VGA quality images at 60 fps, enabling your real-world view to be displayed in 2D or 3D stereoscopic video, mixed with 2D or 3D computer graphics and data. Comes complete with composite and Windows graphic card connections and Vuzix Developer Program SDK support.

For all Video Devices

Wrap™ 310XL
Stylish, widescreen, 2D and 3D support, affordable – who could ask for more?

The popular Wrap 310XL offers all the key features you are looking for. Experience 2D or 3D video on a 16:9 widescreen home theater with a virtual 55-inch display as seen from ten feet. With four hours of continuous viewing on just one AA alkaline battery, or up to ten hours on a single lithium AA, you can watch whatever you want, wherever you want. The Wrap 310XL connects to virtually any video composite source including your iPod or iPhone.

For all Video Devices

maxReality™ – One Click AR

maxReality, an Autodesk 3ds Max plugin, creates 3D stereoscopic virtual and augmented reality files that can be played through a free maxReality Viewer application. Select your 3ds Max content and click the "Export" button for instant interactive stereoscopic 3D AR content.

Wrap™ Accessories – Unmatched Power & Flexibility

Wrap™ VGA Adapter

The Vuzix Wrap VGA Adapter connects Wrap 1200 and 920 series video eyewear to virtually any make or model of graphics card on a Windows-based desktop, netbook or laptop computer.

Deluxe Carry Cases

Choose between a semi-rigid deluxe carry case and an executive leather carry case. Protect your Vuzix video eyewear wherever you go – in style. Both cases provide sufficient space to snuggle any model of Vuzix video eyewear, cables and even an iPod, iPhone or similar portable media player.

Wrap Tracker 6TC

Connect a Wrap Tracker 6TC to any Wrap expansion compatible video eyewear for true “where you look is what you see” capability. This tiny 30 x 10 x 15 millimeter package plugs directly into Wrap 920 and 1200 series eyewear, allowing its nine sensors to provide six degrees of freedom tracking. Includes drift compensation, calibration software and tracking support for a wide variety of games and other applications.

Wrap™ PowerPak +

Extra power, added convenience and improved performance – more than just a rechargeable battery. The Wrap PowerPak + contains a rechargeable lithium ion battery offering added hours of video view time to your Wrap video eyewear and iPod/iPhone media players. It supports both conventional composite video as well as high-performance component video to enable your Wrap eyewear to display 2D or 3D video as it was meant to be seen. Custom sleeves cuddle your iPod, iPhones and other portable media players to the PowerPak + and custom cable solutions eliminate awkward cable tangle. So much power in such a small package!

Wrap PowerPak+ available now.

iPod touch/iPhone sleeves available Spring 2011.
